

NYICES Same Day / Next Day and 2 Day Speed Changes – Effective 16th May 2022

Dear Prescribers,

Following on from our communication in March 2022 (attached below), we now follow up with the second stage of the activity speed review implementation. It is imperative that you familiarise yourself with these changes ahead of the 16th May and understand the importance and relevance to any future orders.

NYICES March 2022 -
Activity Speed Deploy

The developments which will be effective 16th May 2022 are as follows:

- 1. Introduction of a restricted Same Day (SD) catalogue**
- 2. Removal of the DE02 - 2 Day Delivery speed.**

Introduction of a Restricted Same Day (SD) Catalogue

The Same Day Delivery speed is available but intended only for use to facilitate 2-hour crisis response, discharges from hospital, fast track, admission avoidance and/or emergency. With effect 16th May 2022, only items from the following list will be permitted for delivery on the DE04 Same Day Delivery Speed. This means that any order for delivery **MUST** contain at least one of the items on the list below.

To ensure that Medequip are able deliver a responsive all emergency deliveries, upon all orders being approved and received by Medequip the Operations team will confirmed with the appropriate person (patients/ families/carers) to ensure that deliveries can be received on the day of intended delivery. Should there be an issue with the delivery Medequip will contact direct the prescriber to advise.

Should an order be placed for Same Day Delivery and one of the items below is not included in the basket, the Medequip Customer Service team will cancel the order and email you to advise that the order has been cancelled. Prescribers will be required to place the order again through the TCES system on the appropriate speed.

Please ensure you and fellow prescribers are aware of the implications of this action.

(Commissioners consulted with Clinical Leads, Clinical Managers group, both NYCC and City of York LA OT's and Medequip to produce the list below.)

The Same Day Catalogue effective **16th May 2022** is as follows:

Removal of the DE02 – 2 Day Delivery Speed

Please be advised that effective 16th May 2022, the 2-day delivery speed will no longer be available.

Prescribers should endeavour to use appropriately the 3-day and 5-day delivery for non urgent orders. Speeds to facilitate orders and only where appropriate to facilitate 2-hour crisis response, discharges from hospital, fast track and/or emergency use the SD delivery speed (noting the order must include an item from the list above.)

Future Developments

In support to the above, Medequip and NYICES commissioners are currently exploring one final option to introduce weekend activity.

The finishing touches of this service are being finalised and we expect to be in a position to communicate what this will look like mid-May with a view to introducing the option for Saturday and/or Sunday deliveries Mid-June, please keep your eyes peeled for the final instalment of the activity speed implementation.

How to contact us
