

Current situation regarding KONAKION SOL FOR INJ AMP 2MG/0.2ML (2mg phytomenadione in 0.2ml).

1st October 2020

As you will be aware there will be a short out of stock situation of the UK licensed product KONAKION SOL FOR INJ AMP 2MG/0.2ML (2mg phytomenadione in 0.2ml). Alliance Specials & Mawdsleys Unlicensed have worked with Neon Healthcare Ltd (commercial representative in UK of Cheplapharm, the MA holder) to list an unlicensed imported Konakion 2mg to help maintain supply to the customer. This product is manufactured in the same facility and to exactly the same formulation and standards as the UK licenced product. It is tri-lingual, including English. QC release documentation including QP certified release is available.

The unlicensed product is on order and expected to be in stock at Alliance Specials and Mawdsleys Unlicensed by November 1st 2020. The unlicensed product will only be in place until the UK licensed product is back in stock, currently estimated to be by beginning of December 2020. We are making you aware ahead of the unlicensed product being available to give you time to amend any ordering processes.
