

Acute Shoulder Service

The Acute Shoulder Clinical Assessment Service (York Hospital) is now available on e-Referral Service (e-RS) and referrals to this service will not be accepted by post or fax.

Referrals into this service should be sent via the Integrated Care Gateway to the RSS, referred as URGENT,
Speciality: Orthopaedics and Clinic Type: Shoulder.

This service is for **Urgent referrals only** - Complex shoulder conditions – Acute rotator cuff tears, Acute reduced shoulder dislocations, Acute distal biceps rupture (not proximal), Acute pectoralis tears.

Please make it clear in the referral that it is for the **Acute Shoulder Clinical Assessment Service**.
