

General Practice Nurse Safeguarding Training

To protect children, young people and adults at risk from harm, and help improve their wellbeing, all healthcare staff must have the competencies to recognise child maltreatment, opportunities to improve childhood wellbeing, and to take effective action as appropriate to their role.

This training aims to support Nurses in General Practice to enhance their skills and knowledge to be able to effectively identify, assess and respond to safeguarding concerns, ensuring the protection and well-being of children and adults at risk of harm and abuse.

Target Audience:

This is a two-hour interactive virtual session **via Microsoft Teams** designed specifically for **clinical nursing** staff working across Primary Care in North Yorkshire and York.

This training can be used to contribute towards level 3 safeguarding Children and Adult competencies.

Objectives:

To increase awareness on:

- Understanding roles, responsibilities, and processes in safeguarding
- Understanding types of abuse and recognising indicators of abuse
- Adverse Childhood Experiences and the impact of trauma
- Maternal and Paternal Mental Health: Impact on children
- ICON and safe sleep
- Domestic Abuse- Targeted enquiry
- 'Was Not Brought' Processes
- Reasonable adjustments and Learning disability health reviews.

Date

Thursday 10th October 2024 at 9:30 until 11:30
