Want to Know More About Local Opportunities to Get Active in Your Area?

We're excited to be working with North Yorkshire Sport as part of this year's competition, who work across North Yorkshire and York to promote participation in Sport & Active Recreation for all those in our region. They have a wide range of information and resources available through their website on opportunities to get active near you. Would you like to learn more about what opportunities may be open to your providers, as well as further support and development opportunities around physical activity for your team to assist the support you are able to provide to those in your care? For further information please contact Simon Pierce by emailing: simon@northyorkshiresport.co.uk. He is happy to get involved at your event for those providers taking part in the competition.

We would love to hear what you are doing in your setting, big or small to keep those in your care active and moving. What do you find works for you and would you like to share with fellow providers in our area.

We know Physical activity is just one element of preventing falls in settings, and understanding physical health, environment and equipment, and communication and understanding are all vital. Remember the React to Falls Prevention package is

available to support you in preventing falls, please see our [website](#) for more information.

Closing ceremony

The closing ceremony will be held week commencing 16th September – more information to follow.

Please submit all your events and scores by 31st August to hnyicb-voy.yorkplacequalitynursingteam@nhs.net
